

Deno PDF Generator - Feature Showcase

This document demonstrates all the major features of the Deno PDF Generator module. It includes examples of page setup, text formatting, complex tables, and footers.

Feature Table

Feature	Description	Example
Page Setup	Set page size and orientation. This document is A4 Portrait.	pageSize: "A4", pageOrientation: "portrait"
Text Wrapping & Alignment	Long lines of text automatically wrap to fit their container. You can align text left, right, or center.	This text is centered.
Complex Tables	Tables support dynamic widths, styling, and advanced cell content.	widths: [100, "*", 150]
Cell Alignment	This cell demonstrates vertical and horizontal alignment within a table.	Bottom-Right
Multi-Page & Footers	Content automatically flows to new pages. A footer can be replicated on each page with page numbers.	Page {pageNumber} of {totalPages}
Row 1	Some content for row 1	This is just to make the document longer.
Row 2	Some content for row 2	This is just to make the document longer.
Row 3	Some content for row 3	This is just to make the document longer.
Row 4	Some content for row 4	This is just to make the document longer.
Row 5	Some content for row 5	This is just to make the document longer.
Row 6	Some content for row 6	This is just to make the document longer.
Row 7	Some content for row 7	This is just to make the document longer.
Row 8	Some content for row 8	This is just to make the document longer.
Row 9	Some content for row 9	This is just to make the document longer.

Row 10	Some content for row 10	This is just to make the document longer.
Row 11	Some content for row 11	This is just to make the document longer.
Row 12	Some content for row 12	This is just to make the document longer.
Row 13	Some content for row 13	This is just to make the document longer.
Row 14	Some content for row 14	This is just to make the document longer.
Row 15	Some content for row 15	This is just to make the document longer.
